

MIP's Board of Directors has instituted a policy whereby members and applicants for membership are obliged to inform the President of ethical violations or formal investigations of ethical difficulties. The Board anticipates and expects that MIP members will adhere to the ethical code of their respective professional organizations. If a member has committed an ethical violation, the member is expected to address the violation in a way that restores the member's ethical conduct. The Ethics Committee of MIP created the following statement with the approval of the Board:

MIP Ethics Attestation

Each member, candidate, fellow or applicant to become a member, candidate or fellow of MIP has an affirmative obligation to inform the President of MIP of whether he or she:

- i. Has been sanctioned or dismissed by any hospital, mental health organization, or professional organization for ethical violations, or has voluntarily resigned from a professional organization in response to an investigation of ethical conduct or
- ii. Has had his or her professional license revoked or suspended or has otherwise been sanctioned by any professional licensing board for ethical violations or
- iii. Has been refused malpractice insurance or has had any such insurance policy cancelled or
- iv. Is subject to an investigation pertaining to any of the situations referred to in items i-iii above.
- v. The above obligation continues for the duration of the person's affiliation with MIP. Any change with respect to items i-iv shall be reported promptly to the President of MIP.

It has been previously established that any person serving as a supervisor, faculty or member of the Board of Directors must be a member of MIP.
